

WMS 2020 SUMMER CONFERENCE

July 19-23, 2020

Virtual Exhibit Hall

Wednesday, July 22 | 5:30-6:30 pm MDT

Imagine reaching hundreds of wilderness medicine practitioners and enthusiasts, without ever leaving your home or office. No flight or hotel reservations needed, as the entire WMS 2020 Summer Conference will be virtual, including a unique exhibit hall experience for you to showcase your products or services. You'll have five minutes completely dedicated to you - play a video, do a live demo, have attendees participate in a simulation, or think of another creative idea in order to communicate your message and showcase your company to healthcare professionals who have a passion for the outdoors.

As an exhibitor you will receive:

- Complimentary registration to the entire 5-day virtual conference
- Your company name on the conference website and a pre-conference attendee email
- A 5-minute pitch in the virtual exhibit hall which will be recorded and sent out in the August Trailblazer newsletter to our medical, travel and outdoor community of 26K+

Find out more about the conference at wms.org/conferences/virtualsummer20/ and sign up for a spot before they sell out at wms.org/tradingpost/vendor-table.
